EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen Shaw (45,404) on March 13, 2007.

The application has been amended as follows:

Cancel claims 12-33.

DETAILED ACTION

Election/Restrictions

2. Claims 12-33 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Species 2, 3 and 4, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 1/16/07.

Allowable Subject Matter

3. Claims 1-11 are allowed.

4. The following is an examiner's statement of reasons for allowance:

As to claim 1, none of the prior art teach or fairly suggest the limitation "synthesizing a synthetic texture by using the **filter coefficients** to filter a random noise field in each of the color channels, thereby producing output noise fields in each of the color channels that replicate the synthetic texture when combined into the digital image", in combination with the other limitations of the claim. The prior art of US 2002/0034337 to Shekter, already of record, discloses a process of noise analysis for adding noise to an image, but does not teach or fairly suggest synthesizing a synthetic texture by using the filter coefficients to filter a random noise field in each of the color channels, thereby producing output noise fields in each of the color channels that replicate the synthetic texture when combined into the digital image, as disclosed in the limitations of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US 2002/0171660 to Luo et al. discloses a process of texture synthesis.

Art Unit: 2624

USPN 6,441,867 to Daly discloses noise analysis.

USPN 6,587,509 to Suzuki et al. discloses noise analysis.

USPN 6,593,933 to Xu et al. discloses noise analysis.

USPN 6,724,437 to Funke et al. discloses noise analysis.

USPN 6,995,793 to Albadawi et al. discloses noise analysis.
